- **Webpage:** http://www.math.pitt.edu/ sparling

- **Office hours:**
  Monday Tuesdays and Wednesdays, 4.30pm-5.30pm, in 705 Thackeray,
  or by appointment.
Grading

This is a problem solving course, so the emphasis will be on the careful writing of solutions to problems. You may be asked to revise previously presented work, if appropriate. There will be written work due twice a week, Mondays and Wednesdays. These will be graded at 20 points per homework. The best eight of these assignments will count. In addition there will be 40 points available for class presentations. So a maximum score of 200 points is possible. Grading will be at the levels A- to A+, assuming satisfactory performance.
